

UFLI Scope and Sequence

This chart shows how the Aligned Decodables can be used with the UFLI program. The Aligned Decodables are aligned by percentage of decodability based on introduced letter patterns/sounds and High-Frequency Words. Research has shown that repeated practice of newly acquired skills in a “real world” context is necessary for mastery. The Aligned Books are written to do just that! Through having books that include previously introduced sounds and HFW, while slowly weaving in newly acquire skills, students build strong decoding and word recognition skills, and confidence in their ability to tackle new texts. As such, books recommended to be introduced with a certain lesson may or may not contain the skill taught in that lesson. The book may just contain previously taught skills. Please reach out with any questions by emailing AlignedEducationalResources@gmail.com.

How to read this chart: **Column 1:**Unit-Week; **Column 2:** Title of the Aligned Decodable (they are color coded to the sets they are found in); **Column 3:** Number of words in the book; **Column 4** The decodability percentage if used in that week; **Column 5:** Any words that are “out of sequence” in the book and how many times they appear. Letter sounds are highlighted in **bold** to shows what skill in that word that makes it out of sequence.
