29	I Get	CVC	NF
30	TH Blending Book	TH	B
31	This Is	TH	NF
32	CH Blending Book	CH	B

The letter denoting the type of book is found on the chart.

Fiction and Non-Fiction Decodable Readers (F and NF on the chart): Beautifully illustrated, full-color readers with a complete and robust story containing only an accumulation of sounds covered in the identified lesson or those preceding it. These books have full story lines which are great for reading comprehension skills and vocabulary knowledge development.

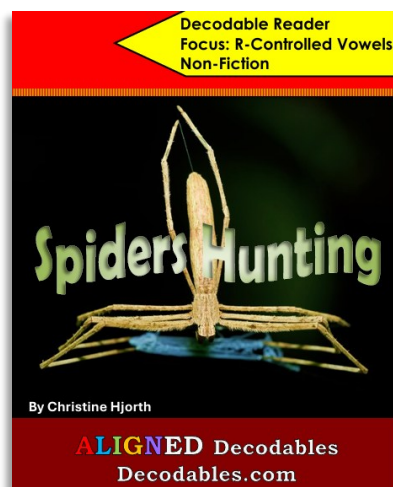

Alphabet Reader (A on the chart): A book to practice newly introduced consonants by showing the letter and a set of pictures that starts with that letter.

Blending Practice Decodable (B on the chart): A decodable book that is used to practice blending with a newly introduced letter pattern. The letter pattern is practiced within a word, then the word practiced within a sentence. These books are also valuable in practicing sentence-level comprehension.

Fluency-Builder Decodable (FB on the chart): A decodable book to practice fluency by adding one new word to each page and having the students reread the sentence until it is complete. This is also known as a Sentence Pyramid.

Passage Decodable (P on the chart): A full story which includes a review of previously introduced letter patterns and high-frequency words, but which also focuses intensely on a newly introduced letter pattern. There are no pictures, which puts a spotlight specifically on sentence-level comprehension.

Morphology Decodable (Listed at the bottom of the Alignment Chart): An advanced decodable with a focus on commonly used prefixes and suffixes, such as pre-, un-, -less, and -ment. Students have the opportunity to read these words in real-world context to help build a deeper understanding of the English language.
