Planets	Jobs	Volleyball

On the Alignment Chart

Grey Title : Interactive Reproducible/Passage Book; **Sets By Skill** : The following two pages will tell you which titles come in each set. You can use these to see where these titles fall in the UFLI scope and sequence.

Really Great Reading Scope and Sequence

This chart shows how the Aligned Decodables can be used with the Really Great Reading program. The Aligned Decodables are aligned by percentage of decodability based on introduced letter patterns/sounds and high-frequency Words. Research has shown that repeated practice of newly acquired skills in a "real world" context is necessary for mastery. The Aligned Books are written to do just that! Through having books that include previously introduced sounds and HFW, while slowly weaving in newly acquire skills, students build strong decoding and word recognition skills, and confidence in their ability to tackle new texts. As such, books recommended to be introduced with a certain lesson may or may not contain the skill taught in that lesson. The book may just contain previously taught skills. Please reach out with any questions by emailing Info@Decodables.com.

How to read this chart: **Column 1**:Unit; **Column 2**: Title of the Aligned Decodable; **Column 3**: The focus of the book; **Column 4:** Type of book (description found at the bottom); **Column 5:** Number of words in the book; **Column 6** The decodability percentage if used in that week; **Column 7**: Any words that are "out of sequence" in the book and how many times they appear. Letter sounds are highlighted in **bold** to shows what skill in that word that makes it out of sequence. Each word found once unless otherwise noted.

	The Day Out	REVIEW: All consonants, all short vowels, double consonants, blends, digraphs, silent e, r-controlled vowels, "y" at the end of a word says /e/ or /i/, EE/EA, and AI/AY		Chapter Book

Decodable Types

F and NF = Fiction and Non-Fiction Decodable Readers: Beautifully illustrated, full-color readers with complete and robust stories. They include only an accumulation of the sounds introduced by the point that the decodable is used. These books have full story lines that are great for developing comprehension skills and vocabulary knowledge.

A = Alphabet Reader: A book to practice newly introduced consonants by showing the letter and a set of pictures that start with that letter. These readers also include the five short vowels with practice with CVC reading.

B = Blending Decodable: An illustrated decodable book that is used to practice blending with a newly introduced letter pattern. The letter pattern is practiced within a word, then the word practiced within a sentence. These books are also valuable for practicing sentence-level comprehension.

FB = Fluency-Builder Decodable: A decodable book to practice fluency by adding one new word to each page and having the students reread the sentence until it is complete. This is also known as a Sentence Pyramid.

P = Interactive Reproducible (Passage) Decodable: A full story which includes a review of previously introduced letter patterns and high-frequency words, but which also focuses intensely on a newly introduced letter pattern. There are no pictures, which puts a spotlight specifically on sentence-level comprehension.

Morphology/Advanced Decodable:

These advanced decodables have more difficult sentence structures and comprehension themes. They also focus on the use of affixes, such as pre– and –ful.
